Attorney's Docket No. 16113-0384001

Amendments to the Drawings:

The attached replacement sheet of drawings includes changes to Figure 5 and replaces the previous replacement sheet Figure 5.

In Figure 5, the output " $b_p(n)$ " from the LPC filter 504 has been changed to " $e(n)$ " as described in the specification (see page 20, lines 1-21), and as required by the Examiner in the Notice of Allowability. No new matter has been added.

REMARKS

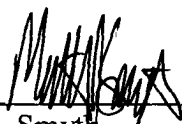

In response to the Notice of Allowance dated July 3, 2008, Applicants have corrected typographical errors in the specification and the drawings. Note that the amendments to the specification were previously presented in a reply dated August 13, 2007. Upon further inspection of the file, Applicant discovered that some of the replacement text was not properly identified as such, in the August 13<sup>th</sup> reply, by being underlined. Accordingly, the amendments are presented again here with proper formatting. Support for the amendments can be found in the corresponding figures and in the specification itself. Accordingly, no new matter has been added.

As noted above, FIG. 5 has also been corrected as required by the Notice of Allowability mailed July 3, 2008, and previously discussed with the Examiner by telephone. The correction from "b<sub>p</sub>(n)" to "e(n)" is fully supported by the originally filed specification, including, for example, at page 20, lines 1-21. Accordingly, no new matter has been added.

This Amendment After Allowance is being submitted concurrently with a Response to Notice of Allowance, Comments on Examiner's Reasons for Allowance, an Issue Fee Transmittal, Fee Address Indication Form and required fees. Please apply any other charges or credits to Deposit Account No. 06-1050.

Respectfully submitted,

Date: September 29, 2008
